About the Course

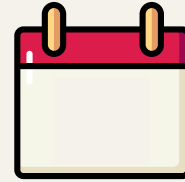

Sri Bharati Krsna Tirthaji found the ancient Indian mathematical method known as "Vedic Mathematics" from the Vedas between 1911 and 1918. According to his research, sixteen Sutras, or word formulas, are the foundation for all mathematics. These formulas explain how the mind functions naturally, thus they are beneficial in guiding the student toward the best approach to solving problems. This Vedic Mathematics course will teach you some incredible techniques and tactics to make your calculations on a regular basis simpler, as well as how to think more creatively.

Course Highlights

Duration: **30 hours**

Daily timing options: **1 or 2 hr/day**

Online live instructor - led Training

What you need for Remote Training?

- Laptop or Desktop
- Stable internet connection

What will you learn?

Week 1

- Introduction to Vedic Math
- Base
- Complement
- Balancing Rule
- Subtraction

Week 2

- Multiplication
- Fraction
- Divisibility Rule

Week 3

- Division
- Addition
- Unit digit
- Prime number

Week 4

- Square and Square Root
- Cube & Cube root
- Digital Sum

Who can apply?

- Students
- Working Professionals
- Candidates looking to upskill their skill set
- Candidates preparing for competitive exams
